

XRAY TEST REPORT

IPS Routing for Local Transfers

Epic DW-127570 — Merged Test Execution Report

 Report Date: August 10, 2026

 Status: Implementing

 146 Total Test Runs

 10 Test Plans

Executive Summary

76.1%

PASS RATE (Executed Tests)

67 passed out of 88 executed

60.3%

EXECUTION COVERAGE

88 executed out of 146 total

Results by Test Execution

TEST EXECUTION	STORY	PLATFORM	TOTAL	PASS	FAIL	ABORTED	TODO
DW-138325	IPS Feature Flag & Fees Configuration in Staff Portal	—	20	17	0	3	0
DW-138347	IPS Eligibility Check on urpay side for Local Transfers	—	20	14	0	3	3
DW-138268	Capture user consent for IPS Terms & Conditions	AOS	12	7	0	5	0
DW-138269	Capture user consent for IPS Terms & Conditions	IOS	12	8	0	4	0
DW-138302	Execute IPS Payment	—	14	8	0	1	5
DW-138248	Display transaction and share details	AOS	18	13	5	0	0
DW-138270	Display transaction and share details	IOS	18	0	0	0	18
DW-138228	Online PSR Handling for IPS transactions	—	10	0	0	0	10
DW-138203	EOD File Processing for IPS Transactions	—	12	0	0	0	12
DW-138215	IPS Transaction Status Inquiry	—	10	0	0	0	10

Test Plans Awaiting Execution

TEST PLAN	STORY	TESTS PLANNED	STATUS
DW-138376	DW-132442 — IPS Transaction Validation on ARB	25	NOT STARTED
DW-138285	DW-135029 — Transaction Notifications for IPS	10	BLOCKED

 35 additional tests have no execution runs created yet.

Failed Tests (5)

All failures are in **DW-138248** — Display transaction and share details (Android)

TEST KEY	TEST SUMMARY	LINKED DEFECT
DW-138236	Verify Share as Image from Success Screen	DW-138583
DW-138237	Verify Share as Image from Transaction Details	DW-138583
DW-138239	Verify local transfer filter includes IPS transactions	DW-138665
DW-138245	Verify user can complete transfer after Retransfer from IPS transaction	DW-138794
DW-138246	Verify Retransfer negative case with insufficient balance	DW-138794

Aborted Tests (16)

TEST KEY	TEST SUMMARY	EXECUTION
DW-138307	Verify IPS feature flag toggle action is recorded in the audit log	DW-138325
DW-138312	Verify updating the non-IPS fee reflects on the IPS fee (shared configuration)	DW-138325
DW-138323	IPS feature flag OFF, Check Banks List	DW-138325
DW-138337	Beneficiary (existing) bank not in IPS bank table — routed to non-IPS	DW-138347
DW-138341	Incoming IPS transfer to urpay account — received and credited correctly	DW-138347
DW-138342	Incoming IPS transfer — transaction history entry is correct	DW-138347
DW-138259	Field variation coverage for mixed transaction attributes	DW-138268 (AOS)
DW-138260	Consent behavior after filtering beneficiary or transaction list	DW-138268 (AOS)

TEST KEY	TEST SUMMARY	EXECUTION
DW-138261	Consent displayed during retransfer flow from transaction history/details	DW-138268 (AOS)
DW-138263	Negative: disclaimer content service/configuration unavailable	DW-138268 (AOS)
DW-138265	Edge: transaction data changes after consent screen display	DW-138268 (AOS)
DW-138259	Field variation coverage for mixed transaction attributes	DW-138269 (iOS)
DW-138260	Consent behavior after filtering beneficiary or transaction list	DW-138269 (iOS)
DW-138261	Consent displayed during retransfer flow from transaction history/details	DW-138269 (iOS)
DW-138263	Negative: disclaimer content service/configuration unavailable	DW-138269 (iOS)
DW-138300	Timeout during execution	DW-138302

Blocking Defects

DW-138807 PSR Is Not Received & Transfers Remain in Accepted Status

● Blocks 5 stories: DW-133029, DW-135029, DW-137209, DW-137210, DW-137211

DW-138646 Sarie limit validation is performed before determining transfer type (Sarie/IPS)

Blocks: DW-130635

DW-138667 OTP message displays currency placeholder instead of currency code

Blocks: DW-135029

DW-138752 "The entered ID isn't correct" Error When Adding/Editing Local Beneficiary

Blocks: DW-130635

DW-138583 local - Share Image option is missing

Causes test failures: DW-138236, DW-138237

DW-138662 Keys are displayed in Shared Text

Related to: DW-135030

DW-138664 Incorrect Details are displayed in Transaction Details

Related to: DW-135030

DW-138665 Existing Local Transfer Filter isn't working for IPS transfers

Causes test failure: DW-138239

DW-138794 Error Displayed in Re-transfer flow for IPS Transactions

Causes test failures: DW-138245, DW-138246

Test Plan: IPS Transaction Validation on ARB (DW-138376)

25 tests — No execution created yet

#	TEST KEY	SUMMARY
1	DW-138351	Trigger ARB validation for IPS-eligible transaction after urpay checks pass
2	DW-138352	Do not trigger ARB validation when urpay eligibility checks fail
3	DW-138353	Route to IPS when ARB response is IPSEnabled Y and Status 01 Available
4	DW-138354	Block transfer when ARB response is Status 02 Unavailable
5	DW-138355	Route to Sarie when ARB response is Status 03 Unsubscribed
6	DW-138356	Block transfer when ARB response is Status 04 IPS Unavailable
7	DW-138357	Route to Sarie when IPSEnabled is N
8	DW-138358	Reroute to Sarie when ARB validation fails
9	DW-138359	Reroute to Sarie when ARB validation times out
10	DW-138360	Reroute to Sarie on ARB technical error
11	DW-138361	Ignore sarieEnabled flag from ARB validation response
12	DW-138362	Verify behavior when Beneficiary with IPS only bank attempts transfer when IPS flag OFF
13	DW-138363	Use Neoleap Staff Portal fee override instead of ARB default fees

#	TEST KEY	SUMMARY
14	DW-138364	Use ARB default transaction fees when no internal override exists
15	DW-138365	Auto-select previous Purpose of Transfer for same beneficiary
16	DW-138366	Require user to select Purpose of Transfer when no previous POT exists
17	DW-138367	Validate POT mapping 001 to IPS key 1
18	DW-138368	Validate POT mapping 002 to IPS key 9
19	DW-138369	Validate POT mapping 004 to IPS key E
20	DW-138370	Validate POT mapping 005 to IPS key F
21	DW-138371	Display IPS confirmation screen with instant receipt message and mandatory disclaimer
22	DW-138372	Use production bank code for bank not available in IPS list
23	DW-138373	Use IPS bank ID for bank not available in Sarie but available in IPS
24	DW-138374	Handle merged bank mapping when production and IPS names/codes differ
25	DW-138375	Validate transfer amount passed to ARB matches user-entered amount

Test Plan: Transaction Notifications for IPS (DW-138285)

10 tests — No execution created yet | Blocked by DW-138667, DW-138807

#	TEST KEY	SUMMARY
1	DW-138275	IPS transfer to ARB bank during working hours
2	DW-138276	IPS transfer to ARB bank outside working hours
3	DW-138277	IPS transfer to IPS-supported non-ARB bank on weekend (COUT_IPS)
4	DW-138278	IPS transfer to IPS-supported non-ARB bank on holiday (COUT_IPS)
5	DW-138279	Non-IPS transfer to ARB bank (COUT_BANK)
6	DW-138280	Non-IPS transfer to non-ARB bank during working hours (COUT_SARIE)
7	DW-138281	Validate beneficiary name and amount placeholders in PN
8	DW-138282	Boundary time scenario at configured start/end
9	DW-138283	Arabic / English SMS content
10	DW-138284	Arabic / English PN content

Recommendations

1

CRITICAL

DW-138807 (PSR Not Received) blocks 5 stories — must be resolved before test execution can proceed on Online PSR Handling, EOD File Processing, and Transaction Status Inquiry.

2

HIGH

Create test executions for **DW-138376** (ARB Validation — 25 tests) and **DW-138285** (Notifications — 10 tests). These test plans have 0 executions.

3

HIGH

Execute iOS test run **DW-138270** (Display transaction & share details) — all 18 tests remain in TODO status.

4

MEDIUM

Investigate and re-run 16 aborted tests, particularly consent-related tests on both AOS and iOS platforms.

5

MEDIUM

Fix 5 failing tests related to Share Image and Re-transfer flows — linked defects DW-138583, DW-138665, DW-138794 already raised.
